

During the next two or three weeks you will be in your area to introduce to you and your neighbours the digital range of SCWL Sublimination CD's by Midwest Research.

When our rep/s visit/s you will have an opportunity to hear what they sound like and watch a video if you like.

The product is unusual so needs to be explained as this is a product that health / motivational / finance / educational etc professionals and therapists will not tell you about because they work so definitively that they would lose their ongoing clients. Since it needs to be explained and people are not aware of them we find it best to go through users who choose to become part time reps to spread the word.

The rep will seek to determine if out of the now 179 titles since 1979 there are any that are of real interest to you. We find that when people go through the list they find many many titles that are of interest for themselves or for friends.

Results become noticeable within two or three weeks of playing and occur without effort, willpower or concentration, are quite natural and are generally lasting.

We welcome you to ask difficult and pointed questions of the rep if you like. Allow about 10 - 30 minutes for a visit. If the time the rep calls back is not convenient to you please advise them as to other times they can visit.

For those who would like to arrange an evening or day meeting amongst friends there are gifts of free cd's available. Invite your friends to come and ask difficult questions.

We are short of reps at the moment so if you would like to do this sort of work and meet people around your area or sell in other ways or manage teams and make good part time income just ask how you can become involved for no great outlay apart from the purchasing of your own disk library collection.

Ideally if you have always wanted to be in small part time risk free business with your partner or with some friends we welcome you to enquire because SCWL may be just the opportunity you seek if seeking extra income and if you like helping others reach their full potentials.

We also envisage having dinner events where you can make new friends so if a fuller social life is what you might like then get on board. We currently have dinners every Friday and Saturday nights.

Please turn over for the list of currently available titles. The more you buy the cheaper they become.

Results guaranteed. Research grade product. Evidence based.

Please show this flier to your friends, workmates, etc if they are looking for a new career, interest or profitable part time no risk business.
